

FOUNTAIN AVENUE UNITED METHODIST CHURCH SANCTUARY RENOVATION AND MASTER PLAN PADUCAH, KENTUCKY

Fountain Avenue United Methodist Church utilized our design and historic preservation experience to renovate their sanctuary, chancel, and reception/entry area. The reception/entry area was restored to its original look from 1908, including the original floors and stained glass windows, unseen for 48 years. This project also included a master plan to renovate the entire church facility and add a 6,000 square foot fellowship hall and commercial kitchen.
